PRICE 5 CENTS

MAHUKA SITE CONDEMNATION UNDER WAY GEOLOGISTS FAIL TO REACH SUMMIT

349,000 Tons Are Marketed

Sugar Factors Record Shows
Season Is Nearly Finished
---79,000 To Go

Three hundred and forty-nine thousand tons of Hawaii's sugar crop handled by the Sugar Factors company has, up to the present day, been landed in the market or is now on the water.

This shows that a very large share of the 1910 crop of the islands has been sold at very good prices and the campaign now closing will go down in industrial history as the best average return of recent record.

Under the latest revised estimate, the Sugar Factors Company will han-

dle four hundred and twenty-eight thousand tons this year. With 349,000 tons in the market or on the way, there remains only seventy-nine thousand tons to be shipped.

Of the total shipped, three hundred and eight thousand tons have reached the market and forty-one thousand tons are now on the way.

The great majority of the plantations have finished grinding and are getting in shape for the new crop, that generally speaking, promises

Roosevelt M'Kinley Ready For Politics Peak Still Mystery

NEW YORK, July 29.—The campaign plans of Colonel Roosevelt have been so far completed that he has finally given out one of the dates when he is to speak.

Mr. Roosevelt will speak for Senator Beveridge at Indianapolis on October 15. The Senator is having a hard fight of it, running on what is practically an insurgent platform.

The colonel refuses to express his preference among the candidates in California, where Pinchot is at work. Eram Johnson, the Roosevelt League candidate for Governor, and William Kent, who aims to succeed Congressman McKinley, are both friends of Roosevelt's, but he is not yet willing to enter the contest in their behalf.

(Special Bulletin Cable.)

SEWARD, Alaska, July 29.—It is reported that the American geological expedition which attempted the ascent of Mt. McKinley, under the most favorable auspices, has also failed to reach the summit and is returning. This follows close upon the failure of a newspaper party of explorers, who gave it up and returned a number of days ago.

Wireless In Control of Gov't

WASHINGTON, D. C., July 29.—Government control of the wireless systems of the country has again been brought to the attention of the authorities through the recommendation of Admiral Schroeder. The admiral declares that government control is necessary in order to prevent interference with legitimate business and official messages by experimenters and irresponsible persons.

Order To Condemn Expected Soon

Treasury Department Promises
Prompt Action On
Mahuka Site

According to a letter received by E. O. Hall & Son from George H. McClellan, secretary to the Delegate, orders will soon be issued by the Treasury department for the necessary steps to acquire the increased land called for under the new scheme for enlarging the Federal building site.

Hall & Son being very much interested in the proceedings have kept in close touch with the situation, although there is no present fear of the Fort street business houses having to move in the immediate future.

Mr. McClellan in his letter of July 10 says:

"The Treasury Department have to get out orders and plans for the six hundred or more buildings and sites covered by the bill that has been enacted, but they advise me that it is their expectation to have the orders for acquiring the remainder of the Mahuka block go forward to Honolulu in the very near future."

"I am just leaving for New England for a month's stay, and shall hope to return in the near future."

NO MEETING OF LAND BOARD

Many Propositions On
File For Early
Consideration

On account of the illness of Member Trent and other duties demanding the attention of Member Andrade, there was no meeting of the Land Board at 8 last evening as scheduled.

There are a number of matters to come before the board for early action, and it may be that another meeting will be called before the regular meeting next week.

Land Commissioner Campbell has been up to his ears in work for the past few weeks in regard to the homestead plans, and applications are coming in on every mail, besides many applications which are made personally to the Commissioner.

The office was besieged this morning with men come on land matters for consultation with the Commissioner, and there was a waiting line outside the door which occupied many chairs.

In addition to the many applications for land on Oahu, other islands are sending in their quota, and the work cut out for surveyors to run lines on land which has been applied for will last for many months.

The notices to be published will be issued by Commissioner of Lands and the pamphlet will be compiled in his office. Both of these will be issued next week.

PORTO RICANS AND SALVATION

Army Workers Report On
Their Operations
On Plantations

The latest issue of the War Cry gives the following account of Salvation Army work among the Porto Ricans:

HONOLULU, H. I.—After a ride of one and a quarter hours' duration on the train through beautiful sugar plantations and green rice fields, with a magnificent view of Pearl Harbor, destined to be one of the strongest fortified United States naval stations, Major Willis and the writer arrived at Ewa Mill, about eighteen miles from Honolulu. We were met by Ensign Thimberman at the station. The ensign has charge of the work at Ewa, being, as it is, an outpost to Ala, his headquarters. The meeting was to be held in the Korean M. E. church, which had kindly been loaned us for the occasion. Of course a Salvation Army meeting includes an open-air, so at about 7 p. m. the ensign blew a few notes on his cornet, and soon a goodly number of soldiers—Porto Ricans, as this is a Porto Rican camp—came around, and then we marched to our open-air stand, all prepared for battle, the worthy D. O. swinging a lantern in his hand and shouting, "Everybody!" We held our open-air under a large tree and had a fine congregation. Ensign Thimberman started some choruses in Spanish.

SPAIN VERGES ON RUPTURE

MADRID, Spain, July 29.—Rupture between the government of King Alfonso and the Vatican is imminent.

Don Jamie, pretender to the throne of Spain, has issued a manifesto in which he promises to lead the Carlists in battle.

\$600,000 THIEF IS CAUGHT

NEW YORK, July 29.—Cashier Wider of the Russo-Chinese bank has been captured.

Wider disappeared a few days ago and it was discovered that six hundred thousand dollars of the bank's funds had been stolen.

ELDORADO IS NEW RESERVE

WASHINGTON, D. C., July 29.—The Eldorado national forest has been created by the Government. The national preserve includes 809,810 acres of forest lands.

WALL CUP PLAY IS POSTPONED

It has been decided to start the Wall Cup tennis tournament on Wednesday next instead of on Monday as at first suggested. The first of the month is a bad day to begin the tennis as many of the players are exceptionally busy just then. The entry book will be kept open till Monday at 5 o'clock, and by that time it is thought that there will be a number of names down on the list.

McKreer and Greenfield, of Ewa plantation, have decided to make the trip to Punahoe on August 12 and much interest is added to the annual tournament by that fact. For years there has been a kindly rivalry between the two big mills as to tennis, and time after time an attempt has been made to have a match between the best players of Punahoe and Ewa. Sports always interfered with the schemes and nothing was done till now.

The Ewa men will complete the seven teams that are to visit Maui, and besides the regular tournament there will be special matches between Ewa and Maui. It may happen that in the near future an Ewa team of six pairs will meet Punahoe on the courts.

To Hold Up Bonilla

WASHINGTON, D. C., July 29.—The British cruise-ship has been dispatched with orders to attempt to intercept the Honduran revolutionary expedition which recently sailed from Belize under General Bonilla.

AFTER WATER IN MAUNALEI GULCH SOURCES

Twenty men are now at work developing the water of the Maunalei gulch on Kaula, and it is expected that a good flow of water will be secured in the comparatively near future.

This work is being done under the direction of John T. McCrossen, head of the syndicate that is developing the island of Kaula.

Maunalei has of late years been associated with one of the plantations of the boom period, a property that failed on account of lack of water.

Asked whether he thought he could get water, Mr. McCrossen said: "I don't think I know. Of course, the amount we seek is for stock purposes, cattle and horses, not watered stock. We have a number of our best tunnel men in the gulch, and we expect good results."

JUMPED FOR BALL WENT UNDER AUTO

Jumping directly in front of an approaching automobile to catch a ball thrown by his fellows, a small boy was struck yesterday by an automobile driven by Mrs. Wm. Heilbron.

The boys were playing ball in the street. As Mrs. Heilbron approached, she sounded the warning horn and slowed down. The boys left the street and went to the sidewalk, but just as the machine came upon them one threw the ball to the lad farthest out. He grabbed for it and in so doing jumped directly in front of the auto. Had the machine been running rapidly the blow would have killed the lad. As it was he caught the fender, swung under the machine and was not touched by the wheels.

The boy got up quickly and declared that he was not hurt. Mrs. Heilbron went to his house with him, but he persisted that he was not hurt and the parents refused to send for a doctor.

The first Mrs. Heilbron knew of the boy being in the hospital was on reading the statement in the paper.

DAILY SCORES OF BIG LEAGUES

(Special Bulletin Cable.)
SAN FRANCISCO, July 29.—The scores in the big leagues' play today are:

American—Philadelphia 4, Washington 0; Boston 1, New York 3; Chicago 0, Detroit 1.
National—Pittsburgh 7, Cincinnati 3; Brooklyn 2, Philadelphia 5.

VASILIEFF TO BE RELEASED

That exceedingly slippery customer Vasilieff will be set at liberty on August 7. His three months' sentence for vagrancy expires next Sunday week, and he will then be free once more to start up his agitation among the Russians who, for some time past, have been working quietly on the plantations.

It is definitely stated that Vasilieff and his partners can not be deported and that they will be free to go and come as they please. The other three Russians who were jailed at the same time as Vasilieff are thought to be about his class. It will be remembered that the whole party tried the starvation stunt for a few days, but one by one gave in and asked for food.

The prisoners have given no trouble in jail, but have been incessant in their demands to be sent out with the grass-cutting gangs. This was never done, however, and the men have been kept within the jail walls all the time.

Jailor Asch reports that the Russian (Continued on Page 2)

ENGAGEMENT ANNOUNCED.

Mr. and Mrs. C. J. Ludwigen announce the engagement of their daughter Ethel, to Mr. Caleb B. Dickson.

TAFT'S WARDS FLOCK HERE

Mongolia Brings Nearly
One Hundred And
Fifty

One hundred and forty-two "little brown brothers," the special wards of President William H. Taft, have come to join the Filipino colony that is fast becoming a factor in the development of the sugar industry of the Hawaiian Islands.

The Filipinos were included in the motley but picturesque array of Orientals who swarmed the decks of the Pacific Mail liner Mongolia this morning as that vessel appeared off the harbor after her very pleasant voyage from Japan.

The Mongolia had no sickness on board and the local quarantine officials found it quite a simple matter to grant her pratique.

The vessel appeared off the quarantine shortly after 8 o'clock and by 10:30 she was alongside the Alaka wharf, her hatchets off and the steam turned into the winches preparatory to removing the eleven hundred tons of freight.

In addition to seven lay-over passengers and the large delegation of Filipinos, sixty-two Japanese, forty-one Chinese and one lone Hindu were ticketed to leave the vessel at Honolulu.

According to the officers of the liner, the Mongolia is carrying a large cargo to the mainland. A large (Continued on Page 4)

LOVER WOULD SHOOT GIRL

Broken-hearted Japanese
Wants To Wipe Out
Family

Tokunaga Suetoku is under bonds of \$500 to appear at the Circuit Court next session, and it is all on account of unrequited affection. It appears that Tokunaga fell passionately in love with a Japanese maiden of thirteen summers; and he pushed his suit with fervor. The dainty little daughter of Nippon had, however, other ideas on the subject, and her young fancy had already been caught by another young Japanese, who appealed to her as more prepossessing than the older Tokunaga.

The parents of the girl refused to coerce their daughter, and Tokunaga became desperate. He took to hanging around the home of Miss Chrysanthemum and forcing his attentions on her whenever she appeared in the street. This was annoying enough, but when Tokunaga took to packing a huge revolver around and began to threaten to shoot the object of his affections and her parents, the police were informed of the matter. The fact that Tokunaga also threatened to kill himself did not worry the girl much, but as the lover said he would first wipe the family out, it was thought to be better to have him arrested.

Tokunaga appeared in court this morning and was remanded for trial to the Circuit Court.

COST OF COLLECTING TAXES DECREASED AS VALUATION AND COLLECTIONS INCREASE

During the past ten years the cost of collection of taxes in Hawaii has decreased one-half and the amount of money has increased materially.

In 1901 the cost of collecting each hundred dollars of taxes was four and fifty-two hundredths per cent and last year the average cost of collecting a much large amount of taxes than were collected in 1901 was but two and fifty-six hundredths per cent.

Material decrease in the cost of collecting taxes for the past two years was made by Treasurer Conkling. For 1909 the cost was three and eight (Continued on Page 5)

GOOD SHIP MONGOLIA IS SOUND AS A DOLLAR SO SAY HER OFFICERS

Pacific Mail officers from Captain E. P. Kitt down the line scout the idea that the fine commodious liner Mongolia sustained any damage through her rather unfortunate experience of going aground near the tea port of Shimidzu, Japan, during the early morning hours of July 15th.

From what can be gleaned from those who went through the brief period of detention to which the Mongolia was subjected because of her going on the mud bank, the cable reports received at Honolulu and other places were highly colored and shot far and wide from the mark of veracity.

A positive statement comes from the Mongolia this morning that the vessel has not received the slightest damage through her grounding. Two experienced divers from Yokohama, Japan, made a lengthy and careful investigation of the bottom of the vessel after she had cleared the bank and their report is said to have proved conclusively that the bottom had suffered no damage whatsoever.

It was shortly after two o'clock on the morning of July 15th that the Mongolia shoved her nose into a bank near Okitsu. It is claimed that (Continued on Page 5)
